Informatik-Sonderkolloquium

## Car-2-X Communication

Dr. Andreas Festag

After a decade of research, Car-2-X communication based on short-range wireless radio and ad hoc networking has reached a mature state. The applications mainly target at road safety and traffic efficiency. The talk presents the main technology components, relevant standardization activities and ongoing field trials for the impact assessment of the system on road safety and traffic efficiency.

Biography: Andreas Festag received his Dr.-Ing. degree in Electrical Engineering in 2003 from the Technical University Berlin. Currently, he works as Chief Researcher at the NEC Laboratories Heidelberg.
