Diploma Supplement

This Diploma Supplement model was developed by the European Commission, Council of Europe and UNESCO/CEPES. The purpose of the supplement is to provide sufficient independent data to improve the international ‘transparency’ and fair academic and professional recognition of qualifications (diplomas, degrees, certificates etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It should be free from any value judgments, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why.

1. HOLDER OF THE QUALIFICATION

1.1 Family Name / 1.2 First Name
«nachn» / «vorn»

1.3 Date, Place of Birth
«gebdatE», «gebort»

1.4 Student ID Number or Code
«Mtknr»

2. QUALIFICATION

2.1 Name of Qualification (full, abbreviated; in original language)
Master of Science, M.Sc.

Title Conferred (full, abbreviated; in original language)
n.a.

2.2 Main Field(s) of Study
«StgDtxtE»

2.3 Institution Awarding the Qualification (in original language)
Karlsruhe Institut of Technology (KIT)
«FachbereichD»

Status (Type / Control)
University of the State Baden-Wuerttemberg

2.4 Institution Administering Studies (in original language)
see 2.3

Status (Type / Control)
see 2.3

2.5 Language(s) of Instruction / Examination
German, English
3. LEVEL OF THE QUALIFICATION

3.1 Level
Second university degree qualifying for a profession including a master thesis. Master degrees award the same entitlements as "Diplom" degrees of universities.

The degree is equivalent to Level 7 of the German Qualifications Framework for Lifelong Learning (GQF).

3.2 Official Length of Program
2 years (120 credit points, 4 semesters)

3.3 Access Requirements
Prerequisite for admission into a master degree program is an initial university degree or an equivalent qualification. Universities define further prerequisites by statute. The possible selection criteria are in particular:

- minimum of specialized skills and
- language skills.

A selection process takes place in master degree programs with restricted admission. The possible selection criteria are:

- final grade of the Bachelor degree,
- program achievements and
- other professional or scientific achievements.

The specific admission requirements for the particular degree programs at the KIT are regulated in the university's own statutes. These are published in the bulletins of the KIT at www.kit.edu.
4. CONTENTS AND RESULTS GAINED

4.1 Mode of Study
Full time study with an average of 30 credit points (CP) per semester (6 months).

4.2 Program Requirements / Qualification Profile of the Graduate
The Master of Science in Informatics continues the education and development of the scientific competences that the students have acquired during their Bachelor program of study. The Master program of study provides students with the knowledge and skills necessary for scientific work and research. The program stands out due to the variety and broad range of the courses. This master program of study is structured to provide well-grounded and a broad based education at the same time. Students are required to take two graduate specializations. The program offers a wide variety of specializations in informatics areas including Theoretical Foundations, Algorithm Engineering, Cryptography and Security, Parallel Computing, Software Engineering and Compiler Construction, Design of Embedded Systems and Computer Architectures, Telematics, Databases and Information Systems, Computer Graphics and Geometry Processing, Anthropomatics and Cognitive Systems, Robotics and Automation and System Architecture.

The core focus of the program is the two graduate specializations. For each specialization, students have to select courses of at least 15 ECTS. For a comprehensive education the program offers a broad variety of compulsory courses. Students must also select a minor in a related interdisciplinary field (minor studies). Key competences such as social and teamwork skills are also mandatory (key competences). The table below shows the structure of the master program of study.

<table>
<thead>
<tr>
<th>Sem.</th>
<th>Area of Specialization I min. 15 ECTS</th>
<th>Area of Specialization II min. 15 ECTS</th>
<th>Elective Studies max. 39 ECTS</th>
<th>Minor Studies 9 – 18 ECTS</th>

Graduates of the Master of Science in Informatics are equipped with essential skills:

- **Informatics Competences (Core Competences)**
  Graduates are able to independently apply and enhance their scientific knowledge and methods of computer science. They can assess the relevance and consequences of different computer science methods in solving complex scientific and social problems. Graduates have the necessary skills needed to successfully solve applied as well as scientifically complex problems in the field of informatics and related interdisciplinary fields.

- **Communication Skills**
  Graduates can present and explain informatics ideas clearly and convincingly, both orally and in writing. They are able to communicate effectively to technical and non-technical audiences.

- **Team-work and Project Work**
  Graduates are able to work in multidisciplinary teams. They have project planning and organizing skills.

- **Commitment to Society (Commitment to the Civil Society)**
  Graduates recognize the impact of informatics in a societal context. They have the understanding of professional and ethical responsibilities and are able to act accordingly.

- **Personal and Professional Development**
  Graduates are able to adapt to the newest technologies and use their knowledge for further development.

4.3 Program Details
The transcript of records shows a list of course specific credits, modules and subject areas with grades. The master certificate lists the subject areas with the completed modules and the master thesis with evaluation.
4.4 Grading Scheme

The grades have values between 1.0 (best value) and 4.0 (pass mark):

<table>
<thead>
<tr>
<th>Range</th>
<th>Value</th>
<th>Interpretation</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.0-1.5</td>
<td>very good</td>
<td>for a very good accomplishment</td>
</tr>
<tr>
<td>1.6-2.5</td>
<td>good</td>
<td>for an achievement, which is considerably above average requirements</td>
</tr>
<tr>
<td>2.6-3.5</td>
<td>satisfactory</td>
<td>for an achievement, which meets average requirements</td>
</tr>
<tr>
<td>3.6-4.0</td>
<td>sufficient</td>
<td>for an achievement, which in spite of its deficiencies, still meets the requirements</td>
</tr>
<tr>
<td>&gt; 4</td>
<td>not sufficient</td>
<td>for an achievement, which due to its considerable deficiencies, no longer meets the requirements</td>
</tr>
</tbody>
</table>

4.5 Overall Grade (in original language)

The calculation of the final grade results from the respectively relevant study and examination regulations, which are published in the bulletins of the KIT at www.kit.edu.

If the master thesis is graded 1.0, the final grade is 1.1 or better, and the studies have been completed within seven semesters or less, the distinction “with distinction” is awarded. Students may apply to the examination board for exceptions.

5. FUNCTION OF THE QUALIFICATION

5.1 Access to Further Study

Qualifies for application for enrollment into a doctorate program.

5.2 Professional Status

The degree qualifies for direct entry into a profession.
6. ADDITIONAL INFORMATION

6.1 Additional Information
The following documents are available through the websites of the faculties (see 6.2):

- Study and examination regulations
- Study plan
- Description of the modules

For details with respect to the national university system, see 8.

6.2 Further Information Sources
In reference to the institution: www.kit.edu
In reference to the degree program: www.informatik.kit.edu
In reference to sources of information in the Federal Republic of Germany see 8.8

7. CERTIFICATION

This Diploma Supplement refers to the following original documents:
Diploma for the award of the master degree dated «adat»
Master certificate dated «adat»
Transcript of Records dated «adat»

Certification Date
Head of the Examination Committee
8. NATIONAL HIGHER EDUCATION SYSTEM

The information on the national higher education system on the following pages provides a context for the qualification and the type of higher education that awarded it.

8.1 Types of Institutions and Institutional Status

Higher education (HE) studies in Germany are offered at three types of Higher Education Institutions (HEI).

- Universitäten (Universities) including various specialized institutions, offer the whole range of academic disciplines. In the German tradition, universities focus in particular on basic research so that advanced stages of study have mainly theoretical orientation and research-oriented components.

- Fachhochschulen (Universities of Applied Sciences) concentrate their study programs in engineering and other technical disciplines, business-related studies, social work, and design areas. The common mission of applied research and development implies an application-oriented focus of studies, which include integrated and supervised work assignments in industry, enterprises or other relevant institutions.

- Kunst- und Musikhochschulen (Universities of Art/Music) offer studies for artistic careers in fine arts, performing arts and music; in such fields as directing, production, writing in theatre, film, and other media; and in a variety of design areas, architecture, media and communication.

Higher Education Institutions are either state or state-recognized institutions. In their operations, including the organization of studies and the designation and award of degrees, they are both subject to higher education legislation.

8.2 Types of Programs and Degrees Awarded

Studies in all three types of institutions have traditionally been offered in integrated “long” (one-tier) programs leading to Diplom- or Magister Artium degrees or completed by a Staatsprüfung (State Examination).

Within the framework of the Bologna-Process one-tier study programs are successively being replaced by a two-tier study system. Since 1998, two-tier degrees (Bachelor and Master) have been introduced in almost all study programs. This change is designed to provide enlarged variety and flexibility to students in planning and pursuing educational objectives, they also enhance international compatibility of studies.

The German Qualifications Framework for Higher Education Degrees, the German Qualifications Framework for Lifelong Learning and the European Qualifications Framework for Higher Education describe the degrees of the German Higher Education System. They contain the classification of the qualification levels as well as the resulting qualifications and competencies of the graduates.

For details cf. Sec. 8.4.1, 8.4.2, and 8.4.3 respectively. Table 1 provides a synoptic summary.

8.3 Approval/Accreditation of Programs and Degrees

To ensure quality and comparability of qualifications, the organization of studies and general degree requirements have to conform to principles and regulations established by the Standing Conference of the Ministers of Education and Cultural Affairs of the Länder in the Federal Republic of Germany (KMK). In 1998, a system of accreditation for programs of study has become operational under the control of an Accreditation Council at national level. All new programs have to be accredited under this scheme; after a successful accreditation they receive the quality-label of the Accreditation Council.

---

Table 1: Institutions, Programs and Degrees in German Higher Education

- **Universities (Universitäten) & Specialised Institutions**
  - Bachelor (B.A./B.Sc./B.Eng./LL.B./B.Ed.)
    - 3-4 years
  - Master (M.A./M.Sc./M.Eng./LL.M./M.Ed.)
    - 1-2 years

- **Universities of Applied Sciences (FH)**
  - Bachelor (B.A./B.Sc./B.Eng./LL.B.)
    - 3-4 years
  - Master (M.A./M.Sc./M.Eng./LL.M.)
    - 1-2 years

- **Universities of Art/Music (Kunst- und Musikhochschulen)**
  - Bachelor (B.A./B.F.A./B.Mus./B.Ed.)
    - 3-4 years
  - Master (M.A./M.F.A./M.Mus./M.Ed.)
    - 1-2 years

- **Institutes of the Federal Republic of Germany**
  - Diplom (FH) degree (4 years)
  - Master (M.A./M.Sc./M.Eng./LL.M.)

- **M.A. degree, Certificates, certified examinations**
  - 4-5 years

- **Integrated/long (One-Tier) Programs**
  - Doctorate (Dr.)
    - (Thesis research; may include formal course work)

- **Shorter Programs**
  - Bachelor (B.A./B.Sc./B.Eng./LL.B./B.Ed.)
    - 3-4 years
  - Master (M.A./M.Sc./M.Eng./LL.M./M.Ed.)
    - 1-2 years

- **Approval/Accreditation**
  - Doctorate (Dr.)
  - Integrated degrees
8.4 Organization and Structure of Studies

The following programs apply to all three types of institutions. Bachelor’s and Master’s study courses may be studied consecutively, at various higher education institutions, at different types of higher education institutions and with phases of professional work between the first and the second qualification. The organization of the study programs makes use of modular components and of the European Credit Transfer and Accumulation System (ECTS) with 30 credits corresponding to one semester.

8.4.1 Bachelor

Bachelor degree study programs lay the academic foundations, provide methodological skills and lead to qualifications related to the professional field. The Bachelor degree is awarded after 3 to 4 years. The Bachelor degree program includes a thesis requirement. Study courses leading to the Bachelor degree must be accredited according to the Law establishing a Foundation for the Accreditation of Study Programs in Germany. First degree programs (Bachelor) lead to Bachelor of Arts (B.A.), Bachelor of Science (B.Sc.), Bachelor of Engineering (B.Eng.), Bachelor of Laws (LL.B.), Bachelor of Fine Arts (B.F.A.), Bachelor of Music (B.Mus.) or Bachelor of Education (B.Ed.).

8.4.2 Master

Master is the second degree after another 1 to 2 years. Master study programs may be differentiated by the profile types “practice-oriented” and “research-oriented”, Higher Education Institutions define the profile. The Master degree program includes degree requirement. Study programs leading to the Master degree must be accredited according to the Law establishing a Foundation for the Accreditation of Study Programs in Germany. Second degree programs (Master) lead to Master of Arts (M.A.), Master of Science (M.Sc.), Master of Engineering (M.Eng.), Master of Laws (LL.M.), Master of Fine Arts (M.F.A.), Master of Education (M.Ed.). Master study programs which are designed for continuing education may carry other designations (e.g. MBA). The Master degree corresponds to level 6 of the German Qualifications Framework/ European Qualifications Framework.

8.4.3 Integrated “Long” Programs (One-Tier): Diplom degrees, Magister Artium, Staatsprüfung

An integrated study program is either mono-disciplinary (Diplom) or multi-disciplinary (Magister Artium). Most programs completed by a Staatsprüfung or States Examination correspond to level 1 of the German Qualifications Framework/ European Qualifications Framework (Diplom). While the Staatsprüfung comprises at least one major and two minor fields (Magister Artium) is prerequisite to enter the second stage of advanced studies and specializations. Degree requirements include submission of a thesis (up to 6 months duration) and comprehensive final written and oral examinations. Similar regulations apply to studies leading to a Staatsprüfung. The level of qualification is equivalent to the Master level.

- Integrated studies at Universitäten (U) last 4 to 5 years (Diplom degree, Magister Artium) or 3 to 6 years (Staatsprüfung). The Diplom degree is awarded after successfully passing examinations in major disciplines in two to three years as well as economics and business. In the humanities, the corresponding degree is usually the Magister Artium (M.A.). In the social sciences, the practice varies as a matter of institutional tradition. A preparation course with successful completion is required for entering the legal, medical and pharmaceutical professions are completed by a Staatsprüfung. This applies also to studies preparing for teaching professions of some Länder.

- The qualifications (Diplom, Magister Artium and Staatsprüfung) are academically equivalent and correspond to level 7 of the German Qualifications Framework/ European Qualifications Framework. They are usually recognized to admission to higher education. Further prerequisites for admission may be defined by the Higher Education Institution, cf. Sec. 8.5.

- Integrated studies at Fachhochschulen (FH)/Universities of Applied Sciences (UAS) last 4 years and lead to a Diplom (FH) degree which corresponds to level 6 of the German Qualifications Framework/ European Qualifications Framework. While the FHUAS are non-doctorate granting institutions, qualified graduates may apply for admission to doctoral studies at institutions, cf. Sec. 8.5.4.

- Studies at Kunst- und Musikhochschulen (Universities of Art/Music etc.) are more diverse in their organization, depending on the field and individual objectives. In addition to Diplom/Magister degrees, the integrated study program awards include Certificates and examinations for specialized areas and professional purposes.

8.5 Doctorate

Universities as well as specialized institutions of university standing and some Universities of Art/Music are doctorate-granting institutions. Formal conditions prerequisite for admission to a doctoral degree (M.A., or a for Bachelor’s and Master’s degree or a for a for Bachelor’s and Master’s degree) may be defined by the Higher Education Institution, cf. Sec. 8.5.4. Doctorate degrees may be granted by a Higher Education Institution on the basis of an individual Doctoral Thesis. A Doctoral Thesis must be submitted within a period of up to 8 years. The doctoral degree corresponds to level 8 of the German Qualifications Framework/ European Qualifications Framework.

8.6 Grading Scheme

The grading scheme in Germany usually comprises five levels (with numerical equivalents; intermediate grades may be given): “Sehr Gut” (1) = Very Good; “Gut” (2) = Good; “Genügsam” (3) = Satisfactory; “Nicht ausreichend” (4) = Insufficient; “Nicht ausreichend” (5) = Sufficent/Fail. The maximum grade passing grade is “Ausreichend” (4). Verbal designations of grades may vary in some cases and for doctoral degrees. The structuring of the grading scheme corresponds to level 8 of the German Qualifications Framework/ European Qualifications Framework.

8.7 Access to Higher Education

The General Higher Education Entrance Qualification (Allgemeine Hochschulreife, Abitur) takes 2 to 13 years of schooling allows for admission to all higher educational studies. Specialized variants (Fachgebundene Hochschulreife, Fachhochschulreife) are designed for continuing education, grade distribution tables are described in the ECTS Users’ Guide are used to indicate the relative distribution of grades within a reference group.

8.8 National Sources of Information

- Kultusministerkonferenz (KMK) [Standing Conference of the Ministers of Education and Cultural Affairs of the Länder in the Federal Republic of Germany]; Grauerndorfer Str. 157, D-53117 Bonn; Phone: +49(0)228/551-0; Fax: +49(0)228/551-777;
- Central Office for Foreign Education (ZAb) as German NRAC; www.kmk.org; E-Mail: zab@kmk.org
- “Documentation and Educational Information Service” as German EURYDICE-Unit, providing the national dossier on the education system (http://www.kmk.org/dokumentation/zusammenarbeit-auf-europaescher-ebene-im-eurydice-informationsnetz.html; E-Mail: eurydice@kmk.org)

- Hochschulrektorenkonferenz (HRK) [German Rectors’ Conference]; Alstrasse 39, D-53175 Bonn; Phone: +49(0)228/887-887; E-Mail: post@hrk.de; Website: “Higher Education Compass” of the German Rectors’ Conference features comprehensive information on institutions, programs of study, etc. (www.higher-education-compass.de)

---

1 The information covers only aspects directly relevant to purposes of the Diploma Supplement. All information as of January 2015.
2 Berufsbildnerakademien are not considered as Higher Education Institutions, they only exist in some of the Länder. They offer educational programs in close cooperation with private companies. Students usually have to carry out an apprenticeship at the company. Some Berufsbildnerakademien offer Bachelor courses which are recognized as an academic degree if they are accredited by a German accreditation agency.
